2018 Clinics/Camps

Our Core Values

Integrity: Be honest with ourselves, teammates, coaches, and parents

Excellence: Work hard on and off the court...every drill, every exercise, every practice, every point, every game

Teamwork: We are a team... work as one, play as one, lose as one, WIN AS ONE!

Continuous Improvement: Be better tomorrow than you were today

SKILLS CLINICS

These clinics are designed for players who want to get a jump start on their school season and prepare for their upcoming tryout. Emphasis will be placed on individual skills-passing, setting, hitting and serving. Players will also work on game scenarios, strategies and appropriate offensive and defensive responses.

Middle School Camp

This camp is designed to teach the game of volleyball in a fun and positive atmosphere. All aspects of the game will be taught by experienced coaches who love working with middle school age girls. The camp will focus on individual skills and correct techniques in serving, passing, and hitting. The camp will help them prepare for the upcoming tryout for middle school. The camp will end with a tournament between campers, counselors and coaches.

Itsy Bitsy Spikers

This camp is designed to provide players, 8-12 years old, an opportunity to learn and develop all the fundamental skills through specific drills and exercises in an environment designed for their age. Experienced coaches will use USAV approved lighter balls and lower net heights specifically designed for younger players.

**These materials are neither sponsored nor endorsed by PWCS.*

Clash Mission

Provide a safe, challenging, consistent, and fun learning environment to help our players develop and improve their individual and team volleyball skills, knowledge, capabilities, confidence, and overall performance.
